

Alaa Abdallah Abdallah

Full-stack web developer

I am a Full-stack web developer with more than two years of experience, I have been working with Laravel and Vue.js and created many websites with them, I worked with many Vue.js packages like Vuex, Router, Data tables, Dragging, Vuetify, Element io and Bootstrap-Vue, And many of Laravel Packages like Passport, Breeze, Jetstream and Socialite.

I always try to keep myself updated with modern technologies and concepts. I have ability to learn and contribute quickly to project requirements, I have ability to prioritize and organize personal and group efforts in a fast-paced environment, I feel my skill set and knowledge is transferable which means I have the ability to write code with different manners, pickup new technologies fast or learn a new framework if required to do so.
